The programme is organized on group discussion lines to ensure the fullest participation by all the delegates. Demonstrations are given of the various aids and techniques that can be used for teaching purposes. This year it is also planned to arrange an International Forum at which it is hoped that delegates from all the countries represented at the school will take part.

Every effort is made to combine an attractive social programme with a valuable and interesting course. During the students' leisure time local expeditions, theatre parties, social evenings and other recreational activities are arranged.
